Starting with the first meeting on June 6, 1948 to organize a lake association, Karl Glunz has read minutes of all meetings to document significant and historical issues. The underlying impression gained from these historical documents is the total interest and dedication of the founders of the Friess Lake Advancement Association.

The Association started with property owners and renters located on the south side of the Lake, and not until July 1961 was extended to include “everyone around the entire lake”. In these early years, members of the Association operated a garbage dump; maintained local roads; established, staffed and maintained the Fire Department; supervised lake water quality water level; purchased land and built the Fire House; leveled land and planted trees; initiated water safety regulations and produced a local newspaper *The Friess Lake Reporter*.

Funding of these foundation-building activities was through dues and numerous fund raising events, but most of all through the personal time and work of members who often covered expenses out of their own pockets. An annual tax assessed to property owners was placed in a Utility Tax Fund from which the Association could request funds from the Town of Richfield.

A close relationship existed with the Friess Lake Fish & Game Association until its merger with the Lake Association in 1984. The Ladies Auxiliary of the local American Legion Post took charge of the children’s Halloween Party. All three organizations worked together to sponsor picnics, dances, trap shoots and the 4th of July Parade.

The Friess Lake Advancement Association can celebrate its 60th Year with a debt of gratitude to those men and women who were the true pioneers of Friess Lake.
Thanks to Rob Hinckley for these old pictures of the old Friess’ Resort which is now the Copper Dock Restaurant (left) and the old Hoffman’s Store on Lake Drive near the entrance of Wally & Bee’s (below).

This is Don and Jerry Kroening heading for the Friess Lake Venetian Night. They are in front of 5032 Lakeview Ave. You can see Camp Villa Jerome in the background—which is now Glacier Hills County Park. Thanks to Don’s wife, Janet for sharing this old picture.
LAKE BILLS THIS SESSION: WHERE ARE THEY NOW?

Statewide ban on phosphorus in lawn fertilizer (SB 197/AB 396)
What would it do: This bill would institute a statewide ban on phosphorus in lawn fertilizer (with reasonable exemptions) modeled after Dane County’s ordinance.
Where in the process: Passed the Senate, public hearing held in Assembly committee; full Assembly must pass bill.

Illegal to transport (SB 454, companion bill AB 821)
What it would do: This bill would make it illegal to operate motor vehicles and recreational trailers on highways if they have aquatic plants attached.
Where in the process: Passed the full Senate; referred to the Assembly Committee on Natural Resources to hold public hearing; full Assembly must pass bill.

Slow no wake within 100 feet of shoreline (SB 385)

What would it do: Require boats to operate at slow no-wake speeds within 100 feet of shoreline - local opt out provision included. (current law requires boats to operate at slow no-wake speeds within 100 feet of any dock, raft or pier)
Where in the process: Passed out of Senate Committee on Natural Resources; Senate must vote on the bill; if passed, full Assembly must pass bill.

DNR 2007 FISH SURVEY RESULTS

Here is a short summary of what John Nelson of the WDNR found during his fish survey last year. He is waiting for the fish scales to be analyzed to look closely at growth rates, after which this article will be updated.

Friess Lake is a fertile lake with a fair amount of submerged vegetation. It has a maximum depth of 47’. Wisconsin DNR conducted a fish survey of the lake in the spring of 2007. They found a healthy fish population with northern pike being fairly abundant and a good size structure. A number of pike, mostly females, over 26” were caught, and we recommend that anglers be careful not to over-fish that population. WDNR also caught a fair number of walleye in the 17-23” range. The Richfield Sportsmen’s Club has done all of the walleye stocking in the past but, WDNR is scheduled to begin walleye stocking in the lake on alternate years starting in 2008. The largemouth bass population is perhaps the highlight of game fish in the lake with a high percentage of fish over 14” long. Bluegills have a good size structure compared to other lakes in the region with the largest reaching about 8-1/2” long. Crappies and perch are also present.

At this point, boat access is only available at Wally and Bee’s Resort on the west shore. A public access is scheduled to be built over the next two years on a channel leading into Little Friess Lake and providing access to Friess Lake.

High Water Reminder
Please be considerate of your neighbors’ shoreline. When the lake levels are high, waves cause damage to the shoreline. Remember to keep your waves to a minimum when the water levels are high.
10.21.07 FLAA Member Meeting Minutes

Meeting was called to order at 10:32 a.m. by President Karl Glunz. Role call of officers, all present with the exception of Penny Phillips, Chan Siefert, and Dick Koch whom were all excused.

New Members – None.

Toby Cotter, Town of Richfield Administrator met with the Association prior to the meeting. Topics discussed:
- New Highway Supervisor
- Boat Launch
- Riverview cleanup and new road
- Zoning Cleanup

Village Status
Thank you to Toby for his insightful information.

Minutes of the 8.19.07 Meeting were approved by George Harms, seconded by Ron Honcharevich. Motion passed.

Treasurer’s Report: 2007 FLEA Market brought in a new profit of $3771.17. Jill will have a detailed breakdown for the spring 2008 newsletter. Expenses of $942.00 insurance payment, We Energies June – September $284.11 and $10.00 annual report. Balance at $11934.80. Motion to approve by Todd Pytlik and seconded by Jessica Cloninger. Motion passed.

Membership Committee Report: 124 paid members to date for 2007. Thanks to all!!

Building Report: None

Newsletter Report: Next issue will be 2008 spring edition. Feel free to submit any articles of interest to Penny Phillips or Amy Oldenhoff.

Special Events Report: Halloween – trick or treat will be Saturday October 27 from 3:00 to 6:00 p.m.

DNR/Lake Issues: Testing is complete for 2007. Results will come in next spring.

SEWRPC has completed their plant management study and their report will be written up this winter. A FLAA committee will be assigned to work with SEWRPC once the report is complete.

Correspondence and Communications: Buckthorn Abatement will be 11.03.07 with a rain date of 11.10.07. Starting at 9:00 a.m. at the Firehall.
2008 Rough Fish Contest
Opening day of fishing season through Labor Day
If you want to participate, you can register at Wally & Bee’s where you will also register anything you catch.
All participants must take whatever they catch with them and dispose of it properly
Prizes to be awarded:
1st, 2nd 3rd prize for total weight
Heaviest of each type: carp, gar, sucker.
Help improve the lake... have a good time fishing... and win some money at the same time.
No charge to register. Contest is sponsored by the Friess Lake Advancement Association and is open to all.

NEW “VILLAGE” DESIGNATION - EFFECT ON FRIESS LAKE

Now that Richfield is a Village, the Village will be responsible for shoreland and floodplain zoning. In the future, when property owners are pulling any building permits, there will no longer be a need to go to Washington County. If any variances are needed regarding any shoreland or floodplain issues, they will be reviewed by the Richfield Board of Appeals. The only involvement the County has is with sanitary permits.

Also, the lake patrol will be run by the Sheriff’s Department as part of the Village’s contract with Washington County for police services.

Meeting minutes continued.....

Hall Rental for members will increase to $100.00 in 2008. Non-member rate will stay at $150.00.

New Business: 2008 Member Meetings will be held in April, June, August, and October.
Board meetings will be held in March, May, July, and September.

Penny Phillips and Chan Siefert were nominated to bring coffee and doughnuts to the April 2008 meeting.

Diana provided the attendance list for the Membership Meeting on 10/21/2007 and there were 29 people in attendance.

Motion to adjourn the meeting was made by Sandy Wolf and seconded by Todd
FRIESS LAKE ADVANCEMENT ASSOCIATION BOARD MEETING MINUTES  
March 27, 2008 at 7:00 PM, held at the home of Karl and Diana Glunz

Call to Order and Roll Call – Jim Stefonich and Dick Koch not present. Karl Glunz, Amy Oldenhoff, Penny Phillips, Al Fritz, Herb Perske, Jill Pezewski and Chan Siefert were present.

Minutes of Previous Meeting – will be in the Spring Newsletter. Penny Phillips made the motion to approve the minutes, Amy seconded the motion. Motion approved.

Financial Report – was provided by Jill on paper. Ending balance: $11,231.58. Penny Phillips made the motion to approve and Herb Perske seconded the motion. All approved.

2008 Committee Leadership – confirmation of leadership was received from all present.

- Membership - Diana/Chan – 125 members last year, goal for next year will 130 members. There are a few members that paid for 2008 already. Penny will include a note in the Newsletter that the dues are due now.
- Building - Al Fritz reported that one of the 2 furnaces in the fire hall broke and was repaired at a cost of $285.64, and it has since broke again. Al will call to follow up again with the repair company. Al will call the landscaper to repair the damage to the lawn that was done last fall. FLAA will not be paying for any costs associated with the repair of the Firehall lawn. Al repaired a window that was broken in the hall area - seems to have been an icicle. Al will look into the rotten fascia wood and determine if rain gutters are needed.
- DNR/Lake Issues - Karl Glunz received information from the DNR on changes to the dissolved oxygen tests. He will look into a grant for an oxygen meter that would reduce the amount of time that the tests would take and improve accuracy. A grant would cover 75% of the cost of $1000. There was a resolution and vote by the Board to cover the costs of this equipment to be used on both lakes. The unanimous vote to approve the oxygen meter will cover the remaining 25% of the costs by FLAA.
- Newsletter - Penny/Amy – Penny has much of the Spring Newsletter complete at this point. Penny Phillips is considering doing a 60th anniversary issue in July to honor the anniversary. Penny will look into embroidered t-shirts for the 60th Anniversary and screen printed shirts for the 60th Anniversary to say STAFF on the back for the flea market volunteers.
- Town Liaison - Rob Hinckley
- Other ideas – Karl Glunz and Penny Phillips discussed looking into a sign that announces “entering a watershed area” to assist in promoting a clean environment and the health of the lake. Karl will pursue looking into options for signs and include the Village.

2008 Meeting & Activities Schedule:

<table>
<thead>
<tr>
<th>Board Meetings</th>
<th>Member Meetings</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 27</td>
<td>April 20</td>
</tr>
<tr>
<td>May 22</td>
<td>June 8</td>
</tr>
<tr>

</tr>
<tr>
<td>September 25</td>
<td>October 19</td>
</tr>
</tbody>
</table>

Chan will be on vacation for the 5/22 meeting, Amy will take care of the minutes. Thanks Amy!

Easter Egg Hunt - Cheryl Wolff will be contacted to find out how many children attended the Easter Egg Hunt that was on March 23, 2008.

Earth Day & Buckthorn Maintenance - May 3 – meet at 9am at the Firehall for both events.

Rough Fish Contest – Herb said that the fishing season begins in May, so the contest will begin in May and will be over at the end of the Labor day weekend. This year the prizes will total $100 for all prizes. Herb will determine the categories for this year and coordinate with Ann Palmer.

July 4th Parades – Karl will contact Patty Weiss and George Harms about the parade and the ice cream and the other festivities.

Country Flea Market - Sept 21 – Penny said the only thing that needs to be done in April is to send the flyer out to the
The FLAA Board voted to increase the rental of the Firehall for FLAA members to $100 effective January 1, 2008. Rent to members was previously at $50. The basis for this change was the increase in Association expenses to prepare and clean the hall. Rental to non-FLAA members remains at $150. Those interested in renting the Hall should call Chan Siefert at 628-4403.

**FIREHALL RENTAL RATES INCREASED**

**PROTECT FISH IN FRIESS LAKE**

A new fish virus that causes large fish kills was discovered in Wisconsin in May 2007. The Viral Hemorrhagic Septicemia virus, or VHS is not a threat to people, however, it spreads easily to healthy fish and kills them. Walleye and bluegill are among the most susceptible to VHS.

Steps to take to protect the spreading of VHS to other lakes per the new statewide emergency regulations effective November 2007 are as follows:

- Before you leave the bank or shore of any water, drain all water from your boat, trailer, fishing equipment, bait buckets and coolers.
- You may not leave the bank or shore of any water with live fish or live fish eggs, including leftover bait fish. Discard in waste receptacles.
- You may not possess live fish or live fish eggs as bait unless either purchased from a licensed Wisconsin dealer or you caught them in the lake you are fishing.
- Remove all visible plants, animals and mud from your boat and trailer.

If you see a large number of dead fish, call the DNR Tipline at 1-800-TIP-WDNR.

Halloween Party - Oct 31? – This will be discussed and confirmed at a future meeting along with the time for the kids party.

Issues & Direction for 2008:
Officer Succession – 2009. The Board, acting as a nominating committee, will look at 7 possible candidates.

The final report of the Plant Management Study is due. A specific action plan will be looked at for 2008 and beyond. Penny Phillips noted that during the SEWRPC meeting at the Village Hall, Toby Cotter offered to put in a water testing location at the Historical Park. This will be pursued.

60th Anniversary Events – Penny proposed an idea to have a gathering the weekend of July 18-20th to commemorate the anniversary of the FLAA. The idea will be brought to the members to explore interest.

The following activities will be continued in 2008:
- Continue DNR Volunteer water testing program.
- Continue Buckthorn Abatement: Spring & Autumn abatement.
- Continue Purple Loosestrife Abatement: Summer Plan.
- Parking on Firehall Grounds: Public Launch effect; signage? FLAA will wait to see what, if any, signage is needed when the launch is completed.
- FLAA will investigate a role with Village to help maintain Public Launch.
- Continue coffee & doughnuts at member meetings: April - Chan / donuts and Penny / coffee.
- Outside speakers in 2008: Village; Plant Management Study; Test Results; others. Karl will look into having Diane Pedersen for the April meeting.
## FLAA 2007 Flea Market Raffle Prizes

The Raffle Prizes were donated by the following generous companies. Please patronize these companies and let them know we appreciate their support!

THANK YOU!

A special thank you to Todd Schram and the Schram Plumbing Company for repair to a couple of running toilets in the Firehall. This work was done at no cost to the Association and is much appreciated.

NO ZEBRA MUSSELS OR SPINY/FISHHOOK WATER FLEAS
The Wisconsin Department of Natural Resources reported that all samples taken from Friess and Little Friess Lakes during the Summer of 2007 tested negative for both zebra mussels and spiny/fishhook water fleas. Our two lakes are among very few in Southeast Wisconsin that do not have these invasive species.

FRIESS LAKE WATER QUALITY IN 2007
Friess Lake water test results for 2007 indicate a higher Trophic State Index (TSI) score compared with 2006. TSI is the water quality index made up of three factors: clarity, chlorophyll and total phosphorus readings. Test results over three years are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Clarity TSI</th>
<th>Chlorophyll TSI</th>
<th>Phosphorus TSI</th>
</tr>
</thead>
<tbody>
<tr>
<td>2005</td>
<td>58</td>
<td>52</td>
<td>49</td>
</tr>
<tr>
<td>2006</td>
<td>48</td>
<td>49</td>
<td>52</td>
</tr>
<tr>
<td>2007</td>
<td>56</td>
<td>57</td>
<td>58</td>
</tr>
</tbody>
</table>

TSI Ranges:
40-50 - moderately clear water; low dissolved oxygen in deeper water.
50-60 - becoming eutrophic; decreased clarity; oxygen depleted bottom; plant overgrowth.
60-70 – eutrophic; blue-green algae dominant; possible algae scums; extensive plant growth.

Some interesting details from the Citizen Lake Monitoring Network data are:

Water Clarity indicates a lake’s overall water quality.
Average July/August secchi depth in 2007 at 4.05 feet; high of 6.75; low of 3.0.
Average July/August secchi depth in 2006 at 7.40 feet; high of 11.0; low of 3.5.
Water Clarity Index: 3 = Very Poor; 5 = Poor; 7 = Fair; 10 = Good.

Water Color reflects the type and amount of dissolved organic chemicals.
2007 – Brown to mid-June; Green to mid-August; Brown through September.
2006 – Brown through July; Green in August and September.
Algae can impart a green, brown or even a reddish color to the water.

Water Level fluctuations significantly affect water quality.
2007 – Normal levels predominant; high readings on June 9, August 22 and 29.
2006 – High on June 4; low throughout July; low again in late August.
Low: causes stressful conditions for fish; increases in nuisance aquatic plants.
High: increased nutrients from runoff /older septic systems; shoreline erosion.

Water Temperature is a major factor in the solubility of oxygen in the lake.
2007 averages: 75 F at 3 feet; 42 F at 40 feet; temperature drop offs at 12-15 feet.
2006 averages: 75 F at 3 feet; 43 F at 40 feet; temperature drop offs at 9-15 feet.
Colder water holds more oxygen.

Dissolved Oxygen: Fish and other aquatic organisms need sufficient oxygen to survive.
2007 July/Aug. – average 10.2 mg/l 3-9’ depth; under 3 mg/l at 20’ depth.
2006 July/Aug. – average 8.3 mg/l 3-9’ depth; under 3mg/l at 20’ July, 15’ Aug.
5 mg/l of oxygen is minimum needed for fish to survive and grow.
Fish cannot survive at oxygen levels under 3 mg/l.

Phosphorus is the key nutrient affecting the amount of algae and weed growth in lakes.
Phosphorus originates from human and animal waste, soil erosion and detergents.
2007 - July/August phosphorus readings averaged 50 micrograms /liter.
2006 – July/August phosphorus readings averaged 21 micrograms/liter.
Ideally, phosphorus concentrations should be 10 micrograms/liter.
Water quality index: 21 micrograms/liter is good; 50 micrograms/liter is fair.

Little Friess Lake has consistently better test results, thus better overall water quality.
2008 Schedule of Events

April 20 Member Meeting
10:30 at the firehall.
New members welcome. Invite your neighbors! Bring your dues = $15 per person

May 3 Earth Day/Buckthorn abatement—Meet at the firehall at 9 am to work on these projects. Bring gloves or tools.

May to August Rough Fish Contest
Register at Wally & Bee’s

May 22 Board Meeting

June 8 Member Meeting
10:30 am at the firehall

Independence Day: July 4
Kids’ Parade 10:30 AM
Line up at Shoreland and Lakeview at 10:20 to participate. Ice Cream and prizes at the firehall after the parade.

Boat Parade 1:00 PM
Decorate your boat and gather in front of Wally and Bee’s to participate. Prizes will be awarded.

July 24 Board Meeting
August 17 Member Meeting
Election of board members

Sept. 21 Country Flea Market
Volunteers needed for all areas

September 25 Board Meeting
October 19 Member Meeting
10:30 am at the firehall

TBD Halloween Party
Prizes for best costumes in each age group.

Alpine Retreat
1380 Friess Lake Rd
Hubertus, WI 53033
(262) 628-3995

BOATING REGULATIONS FOR FRIESS LAKE

Town of Richfield Chapter 13
Water Regulations for Friess Lake

The speed limit is 25 mph from 10:00 am to 7:00 pm (Radar Enforced). At all other times and in all areas outside the traffic lane, the maximum speed shall be: “SLOW NO WAKE”.

The traffic lane for motor boats is the surface of the lake that is beyond 150 feet distance from and parallel to the shore, or 100 feet distance from the projecting extremities of any pier.

No motorboat shall pass within 100 feet of a moored boat, swimmer or skin diver’s marker.

No person shall operate a motorboat towing more than TWO skiers and must have a competent person in addition to the operator in a position to observe the progress of the person or persons being towed.

No person shall operate any boat repeatedly in a circuitous course around any other boat.

No person shall swim more than 1.50 feet from shore unless accompanied by a manned boat for each swimmer.

All rafts, buoys, and markers shall have at least EIGHT inches of free board above the water line.

Slow, no wake, on Little Friess Lake.

Regulations not listed here are the same as STATE LAW.

A completed copy of Chapter 13 can be obtained at the Richfield Town Hall.

PENALTIES:

Any person who shall violate any provision of this chapter shall be fined not less than $10.00 nor more than $100.00 together with the cost of prosecution.

For violations call the town constable at 628-9899.
2008 FLAA dues are due now.
The Association welcomes new members and encourages all members to attend meetings and participate in the various activities in 2008. We also welcome additional contributions to support our activities.
Please invite your neighbors to join us.
Please send $15 per person to Chan Siefert, 1582 N. Friess Lake Dr., Hubertus, WI 53033

NO UNAUTHORIZED PARKING ON PRIVATE PROPERTY

Except for FLAA events, only FLAA members-in-good-standing may park on the Firemens’ Park property. 1514 Lake Drive is owned by the Friess Lake Advancement Association and is not public property. Starting in 2008, action will be taken to have unauthorized vehicles or equipment parking at this site ticketed by the Sheriff and towed. Please do not park on the grass at any time.

FLAA BOARD SUCCESSION 2008
FLAA Board members Karl Glunz and Jim Stefonich will both have served two successive four-year terms in 2008, and they are not eligible for re-election according to the By-Laws. Members are asked to think seriously about serving the Association by being a board member. The Board of Directors transacts all business of the Association working with the membership, and it meets in March, May, July and September.

Elections will take place at the August 17, 2008 member meeting with installation at the October 19 meeting. Any member interested in being nominated or in nominating someone else should contact any current board member.

Please help us update our email list.
If you did not receive this newsletter attached to an email, please send an email to markandchan@charter.net so we can add you to our list. Thanks.

Think about renting the Firehall for your next party.
FLAA members get a special rate when renting the firehall. Reservations are confirmed when we receive your check. Call Chan Siefert at 628-4403 to check on availability for your next event.
Please help us:

This newsletter is being published by F.L.A.A. in the interest of the community. If you know someone who would like to receive it, please let us know. Please send address corrections, additions or deletions to the address above. Deadline for articles for the next issue is July 1, 2008.

WALLY & BEE’S LAST STOP RESORT
1571 Lake Drive
Bar, Boat Rental, Launch,
Bait and Beach
Established 1951
